TOT	183187	328.1	558.3

RATIO 630.3 TO 473.7 = 1.33 TO 1

Notes:

These reports are false. The total stated deaths happened, and Covid-19 may have been “present”, but it was not the primary cause of death. Over 99% have been mis-classified.

Accordingly the Governors who manage the 50 States +DC are not mass-murderers, just liars - with Democrat ones being 1.33 times more prolific liars than Republican ones.

The “Why” and “How” behind the lies are explained in [The Bogus Plague of 2020](#) .

The falsification can happen at any or all of three stages: the physician records a cause of death, and that is often not easy. (S)he may be influenced to favor C-19 as the cause by the Federal largess of \$13,000 to the hospital if the patient has been so admitted.

Then the State recorders and issuers of death certificates may have a chance to modify the records. Thirdly when the data reaches CDC, the figure-falsifiers get to work on a summary, and that may well be where the main mendacity takes place. These clerks are faceless members of The Swamp, and may possibly have an open line to the DNC, ready to change causes of death to the levels the Democrats desire.

The lying can be exposed only by a painstaking audit, and Governors are well enough placed to order some. Random sampling could expose discrepancies between any of these three handling stages. To the extent they have failed to so order, they are culpable.
