

A rational basis for peace in Ukraine

1. The Russian Government (RG) will promptly withdraw all its forces from the territory of the Ukraine Government (UG) and cease all attacks from land, air and sea.
2. UG will recognize Lugansk and Donetsk as independent states and leave them unmolested, and accept that its territory has been reduced accordingly.
3. UG will make no military alliance with NATO or any other nation or group of nations to which RG does not also belong, nor accept into its territory any nuclear weapon.
4. The border between the territories of RG and UG will be open, for merchandise and people. No controls or tariffs will be imposed by either.
5. RG will compensate UG for damage caused to roads, rivers, railroads, water supply, sewage systems and civilian airports by its invasion.
